Tell us what happened.

One finding per form • TEST records only • Include what you want to keep

Fill in a PDF viewer or print. Return to your nominated site Program Manager.

Report ID / tester alias

Local time and time zone

TEST installation and role

App version / browser or installed PWA

Device model / OS / browser version

Connectivity before / during / after

Mission number / synthetic class or case ID

Impact: ☐ Blocked ☐ Workaround ☐ Friction ☐ What works ☐ Idea

Exact steps to reproduce, in order

What did you expect?

What actually happened?

Local/cloud status; missing or retained evidence; recovery tried

Repeated how many times? Independent / help / blocked / not run?

Suggested change / one thing to keep / screenshot reference

No passwords, tokens, recovery links or real learner details. Preserve unsynced device state.

Pause affected testing for unexpected access, lost/wrong grading or false save/finalization success.
